

April 10, 2019

**WHEREAS**, the City of Dallas is committed to energy efficiency and being a good steward of resources in the procurement of energy for municipal operations; and

**WHEREAS**, the City of Dallas is similarly committed to protecting its residents by reducing emissions, improving regional air quality, and addressing the real consequences of climate change; and

**WHEREAS**, the City of Dallas achieved a 68% reduction of municipal greenhouse gas (GHG) emissions from 1990 levels by 2017, exceeding a strategic goal of 39% reduction; and

**WHEREAS**, the municipal emissions reductions were achieved in large part through the procurement of renewable energy, municipal energy efficiency retrofit projects, and on-site renewable energy projects such as landfill gas capture at McCommas Bluff Landfill and co-generation of electricity at Southside Wastewater Treatment Plant; and

**WHEREAS**, the City of Dallas is the most populous municipality in the United States to use 100% renewable energy according to the U.S. Environmental Protection Agency Green Power Partnership Top 30 Local Government list dated February 5, 2019; and

**WHEREAS**, the City of Dallas currently achieves its 100% renewable energy usage in part through the purchase of renewable energy credits (RECs); and

**WHEREAS**, the City of Dallas desires to expand renewable energy use and generation through on- and off-site options; and

**WHEREAS**, solar or wind energy sources accounted for approximately 18% of the energy generated in Texas last year, and Texas led the nation in wind energy generation and was sixth in solar energy generation; and

**WHEREAS**, on June 15, 2016, City Council adopted a resolution encouraging the State of Texas to explore changes that would promote "net metering" and the creation of distributed energy districts or additional programs to expand the use of solar power and other renewable green energy sources by Resolution No. 16-0974; and

**WHEREAS**, on January 23, 2019, City Council adopted a resolution calling for federal action on climate change and continued local efforts to develop a comprehensive environmental and climate action plan with goals that will ensure that the City of Dallas is addressing climate change in a manner that is effective and equitable by Resolution No 19-0223; and

April 10, 2019

**WHEREAS**, the City of Dallas' comprehensive environmental and climate action plan will chart the path forward towards additional emissions reduction goals that will help ensure that we improve the environment and avoid the most severe impacts of climate change; and

**WHEREAS**, by adopting a green energy policy through this resolution, the City of Dallas will ensure that emissions reductions achievements to date will continue; and

**WHEREAS**, the energy policy should be re-evaluated and, as appropriate, updated subject to Dallas City Council approval as part of the comprehensive environmental and climate action plan process and other actions hereby resolved; and

**WHEREAS**, Texas Government Code Section 252.022 (a)(15), exempts electricity purchases from the standard purchasing procedures; and

**WHEREAS**, due to the nature of the energy market, an electricity procurement process with greater flexibility is necessary that authorizes the City Manager to negotiate the final process and enter into an electricity services contract; and

**WHEREAS**, on December 13, 2018, Administrative Action No. 19-5149 authorized the City of Dallas to enter into a consulting contract with TFS Energy Solutions, LLC d/b/a Tradition Energy to provide energy procurement and management advisory services.

**Now, Therefore,**

**BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF DALLAS:**

**SECTION 1.** That the City of Dallas Green Energy Policy shall read as follows: The City of Dallas is committed to clean and efficient energy use and the commitment is embodied by our use of 100 percent renewable energy for municipal operations. The City of Dallas further recognizes the advantage presented by green energy produced by on- and off-site renewable energy projects. Accordingly, we will seek to sustain and promote renewable energy projects and partnerships that reduce emissions and environmental impacts for the benefit of Dallas residents and the region.

**SECTION 2.** That the City Manager is hereby authorized to determine the most advantageous proposal and enter into an electricity services contract, approved as to form by the City Attorney, consistent with the adopted City of Dallas Green Energy Policy and the direction presented in Section 1.

April 10, 2019

**SECTION 3.** That the City Manager (1) examine the feasibility of on- and off-site renewable energy projects at City and other properties; (2) establish a citywide energy management system to include continued benchmarking of municipal energy efficiency efforts and identification of areas for improvement to ensure Dallas remains an energy leader; and (3) continue to explore options to expand the use of renewable energy beyond municipal operations in the Dallas community.

**SECTION 4.** That this electricity service contract will be designated as Contract No. BSD-2019-00009705.

**SECTION 5.** That this resolution shall take effect immediately from and after its passage in accordance with the provisions of the Charter of the City of Dallas, and it is accordingly so resolved.
